

# Nu-Cop<sup>®</sup> HB

## High Bioavailable Copper Fungicide

Nu-Cop<sup>®</sup> HB is the newest addition to the most extensive copper product line in the world. Nu-Cop<sup>®</sup> HB provides the most concentrated copper fungicide available today in a convenient, easy to mix and apply formulation.

### Labeled Crops

- Citrus
- Tomatoes
- Ornamentals
- Alfalfa
- Pinto Beans
- Onions
- Other Fruit and Vegetable Crops
- Almonds
- Grapes
- Dry Edible Beans
- Filberts
- Berries
- Other Nut Crops
- Greenhouse and Shade Crops

### Key Benefits

- The most bioavailable copper ions of any copper fungicide in the market today
- High concentration means less warehouse storage space required
- Convenient handling in 10 pound bags
- Easy mixing formulation
- Compatible with several other labeled fungicides for ease of application
- Use with other labeled fungicides with different modes of action for resistance management
- Can be applied using either ground or air application equipment

### Active Ingredients:

|                         |              |
|-------------------------|--------------|
| Copper hydroxide        | 77%          |
| Other Inert Ingredients | <u>23%</u>   |
| <b>Total</b>            | <b>100 %</b> |

**Always read and follow label directions.**

## AgriStar® Copper Use Rates

| Crop   | Desease            | Nu-Cop HB       | Nu-Cop 50 DF   |
